

ARE YOU LOOKING FOR WILDLIFE CONSERVATION INTERNSHIPS OR EXPERIENCE?

Join LEO Africa, a Big 5 wildlife monitoring and conservation project in South Africa.
Gain course credits through our volunteer program and internships!

Take part in monitoring, identifying and collecting data on the Big 5, cheetah and hyena through twice daily monitoring drives and camera trap processing.

Conduct vital conservation work within the Park such as alien plant removal, bush clearing, fence patrol and road restoration.

Learn about the abundance of flora and fauna as well as reserve management operations.

Other opportunities may include sleep outs, microlight flights and game capture.

All set in the beautiful Marataba Section of the Marakele National Park.
